OTHER:

Being a huge dog lover, and using the experience I have, I've finally decided to open up my own dog grooming, training and behaviour business in London called Bandana Puppies...
where tails love to wag

I love travelling to different countries and sometimes the more remote the better which is why I chose to become an N.A.U.I. qualified scuba diver on an island in Malaysia called Redang. Learning to dive in the sea has brought me close to turtles, clown fish, white and black tip sharks and huge shark rays! Three weeks of diving, trekking in the jungle and living amongst the wild was an amazing experience.

I travel with work quite a bit which involves presenting a variety of different things, whether doing summer road shows in England or hosting the kid's choice awards for Nickelodeon UK in Los Angeles. Whilst in California, I had lessons in surfing actually managing to surf a wave or two! I went to Florida to do a piece on swimming with dolphins which was a dream come true and onto the next location to be surrounded by alligators and feed them. In my time I have handled many creatures from tarantulas to snakes – though I love my pet dog the best!
